

Jeffrey A. Goldstein, MD, FACS, FAOA

Clinical Professor of Orthopedic Surgery & Neurosurgery

Dr. Jeffrey Goldstein is a medical pioneer who stands at the forefront of cutting edge techniques and technologies that can better the lives of the thousands of back and neck pain sufferers. In addition to the many standard operating procedures he practices as a spine surgeon, Dr. Goldstein has expertise in minimally invasive surgical techniques, artificial disc replacement and robotic spine surgery as well.

Dr. Goldstein is an Orthopaedic Spine Surgeon with advanced training in surgery of the spine. He is a Director of the NYU Langone Health Spine Service and Director of the NYU Langone Orthopedic Hospital Spine Fellowship. Dr. Goldstein is an attending surgeon at NYU Langone Medical Center. He is a Clinical Professor of Orthopaedic Surgery and Neurosurgery at the New York University Grossman School of Medicine.

He is currently involved in several clinical trials. Dr. Goldstein has distinguished himself as a researcher and innovator and has authored book chapters and presented numerous articles globally which are published in national and international scientific journals. He has served on the editorial board of The Spine Journal, Spine Line, The Journal of the Spine Arthroplasty Society, and the reviewer board for Spine and Clinical Orthopaedics and Related Research. He has also instructed other surgeons on disc replacement surgery, robotic spine surgery and minimally invasive techniques. Dr. Goldstein is involved in the research and development of biomedical materials and devices. He also serves in an advisory capacity to the news media and several medically oriented companies.

The American Board of Orthopaedic Surgery has granted Certification to Dr. Goldstein. He is a Fellow of the American Academy of Orthopaedic Surgeons and the American College of Surgeons. Dr. Goldstein is a member of the North American Spine Society, the Cervical Spine Research Society, the International Society for Study of the Lumbar Spine, the International Society for the Advancement of Spine Surgery, the Scoliosis Research Society, and the Lumbar Spine Research Society. Dr. Goldstein is a Past President member of the Board of Directors of the International Society for the Advancement of Spine Surgery.

Dr. Goldstein earned his undergraduate degree from Colgate University. He attended medical school at the State University of New York Downstate Medical Center at Brooklyn where he graduated Summa Cum Laude with Distinction in Research. He was trained in Orthopaedic Surgery in Cleveland, Ohio at the Case Western Reserve University School of Medicine.

Dr. Goldstein received additional fellowship training in the treatment of disorders of the spine in Baltimore, Maryland at the Maryland Spine Center.
